*Custom printing on canvas & fine art papers*

## *Commercial, Custom & Fine Art Photography*

---

Anglin art & design can do the best job for you when it comes to custom printing of your photos . . . .

The highest quality large format giclee printing, starting from 8x10 to up to 44" wide. A large variety of media available.

Giclee is an advanced print process for creating high quality fine art. Giclee printers use archival inks which make the archival properties much higher than lithography or silkscreen prints.

All papers are 100% cotton rag, and canvases are archival and of the highest quality.

The result of such advanced technology is the wide acceptance of Giclees by galleries and museums.

Now you can have this process for your own photos. You can have a beautiful piece of artwork printed on canvas or fine art paper just like the most well known artists reproduce their works.

Also available--custom photo shoots, commercial photo shoots, anglin art & design fine art prints.

You can also choose from a selection of custom matting and frames.
